How Data Collection, Assessment, & Strategic Planning is helping to Institutionalize Community Engagement

Henry R. Cunningham, Ph.D.
Director of Community Engagement

1. Student Impact – Addition of two items to course evaluation for all Community-Based Learning (CBL) courses

2. Faculty Impact – Working with Office of Institutional Effectiveness, survey is administered on a two year cycle to random group of faculty

3. Community Impact Assessment – Working with Office of Institutional Effectiveness, a community impact survey is administered every two years to all community partners

4. Institutional Impact Assessment – Development of Community Engagement Plan by each academic and administrative unit.
