Outreach Scholarship Conference 2007
Access through Engagement

October 7–9, 2007
Monona Terrace®
Madison, Wisconsin

An Annual Conference Sponsored by:
University of Wisconsin–Extension/
University of Wisconsin Colleges
The Ohio State University
The Pennsylvania State University
The University of Georgia

www.outreachscholarship.org

Hosted by University of Wisconsin–Extension/University of Wisconsin Colleges
Welcome to Outreach Scholarship Conference 2007, focusing on access through engagement. We are pleased you are able to join with colleagues who are actively engaging with their communities to enhance access to university resources, build partnerships, and make a difference in the lives of those they serve.

We are all learners seeking new and innovative ways to acquire and share knowledge. University-community engagement approaches teaching, research and service as an interactive process between and among learners in both the university and the community.

We are pleased with the range of institutions participating this year, from public to private, from large land-grant to small urban, and from historically black and Hispanic serving to tribal colleges. At Outreach Scholarship 2007, the seventh annual event, you will be able to participate in more than 100 exciting presentations, dialogues, discussions, and demonstrations where colleagues will share their experiences in engagement. We hope you will gain insights into a range of strategies you can use at your institution to increase access through engagement.

On behalf of everyone at the University of Wisconsin-Extension/University of Wisconsin Colleges, The Ohio State University, The Pennsylvania State University, and The University of Georgia, we hope you have a great conference and a wonderful visit to Madison at the height of the fall colors.
A Message from Chancellor David Wilson

I take great pride and pleasure in welcoming you to Outreach Scholarship Conference 2007. You will find this to be a tremendous learning experience discovering how colleagues have successfully engaged in community-university collaborations.

The increasing value of knowledge and information has the potential to help us meet an array of critical societal needs and overcome long-standing obstacles for individuals and groups to realize their utmost potential. Without access to these resources, there is neither value in the knowledge nor value for the user. Through engagement activities, universities and communities are increasingly working together to connect learners and knowledge in meaningful ways.

I know you will enjoy this wonderful opportunity to learn with and from each other. I look forward to sharing in Outreach Scholarship 2007, Access through Engagement, with you.

David Wilson, Chancellor
University of Wisconsin–Extension/University of Wisconsin Colleges

Conference Objectives

The 2007 Outreach Scholarship Conference is designed to engage participants at all levels of experience. For those new to the field or to the idea of access through engagement, the conference will help shape an understanding of the concept by providing relevant examples. For those already experienced in the field, the conference will further the national dialogue about the following:

- Developing effective collaborations and partnerships between campus and community
- Discovering synergies that address critical needs
- Research on the scholarship of engagement
- The roles of universities as “engaged institutions” in the 21st century

Highlights

- 3 Thought Provoking General Session Speakers
  - Allan Johnson, “Unraveling the Knot of Privilege, Power, and Difference”
  - Mark Samels, “Broadening the American Experience”

- 4 Outreach Scholarship Showcases
  - Building Faculty and Staff Capacity for Access and Engagement (The University of Georgia)
  - The Scholarship of Outreach: Writing, Publishing, Disseminating (The Pennsylvania State University)
  - Promoting University Outreach and Research Partnerships (The Ohio State University)
  - Way of the Warrior (University of Wisconsin–Extension)

- 64 “Great Ideas” Concurrent Sessions
- 20 Poster Presentations

Keynote Address: Unraveling the Knot of Privilege, Power, and Difference

Presentation location: Ballrooms ABCD

One of the greatest barriers to ending racism and other forms of privilege is that we are trapped in cultural ways of thinking that turn conversations about privilege and oppression into occasions for dominant groups to feel guilty and defensive. As a result, the conversations we need to have either happen badly or, more often, don’t happen at all. This presentation can help overcome that barrier by providing an alternative way of thinking about issues of privilege.

About the Speaker: Allan Johnson is a writer, teacher, and public speaker who has worked on issues of privilege, oppression, and social inequality since receiving his Ph.D. in sociology from the University of Michigan in 1972. After nearly 30 years of college teaching, he now devotes himself entirely to writing and public speaking. He has worked with more than 160 schools and organizations in 34 states. His books include The Forest and the Trees: Sociology as Life, Practice, and Promise (1997), The Blackwell Dictionary of Sociology: A User’s Guide to Sociological Language, 2nd ed. (2000), The Gender Knot: Unraveling Our Patriarchal Legacy (Temple University Press, revised edition, 2005) and Privilege, Power, and Difference (McGraw-Hill, 2nd edition, 2005). His work has been translated into several languages and excerpted in numerous anthologies. For more about the speaker, visit www.agjohnson.us.
State Showcase: The University of Georgia
Title: Building Faculty and Staff Capacity for Access and Engagement

Presentation location: Hall E

Moderators: Trish Kalivoda, Associate Vice President for Public Service and Outreach
Shannon Wilder, Director, Office of Service-Learning

Presenters:
- Alison Alexander, Associate Dean, Grady College of Journalism and Mass Communication
- Danny Bivins, Public Service Assistant, The Fanning Institute
- Pratt Cassity, Director, Center for Community Design & Preservation, College of Environment and Design
- Rich Clark, Public Service Associate, Carl Vinson Institute of Government
- Bob Galen, Professor of Epidemiology and Associate Dean, College of Public Health

- Freda Scott Giles, Associate Professor, Theater and African American Studies, Franklin College of Arts and Sciences

What strategies are effective for interweaving civic engagement across the teaching, research, and outreach missions of a university? What impact can these strategies have on the institution, faculty members, and students?

What are the barriers to advancing engagement? What new strategies or opportunities could be explored? Hear examples of programs, activities, and practices designed to support and encourage faculty members at The University of Georgia to focus on the scholarship of engagement. Strategies include promotion and tenure guidelines, seed grants, faculty development programs, research grants, awards, interest groups, and ear-marked funds for faculty and student travel to communities distant from the home campus. The group will brainstorm new strategies and explore future opportunities to continue to advance colleges and universities in their civic engagement with communities.

In Depth: Unraveling the Knot of Privilege, Power, and Difference

Presentation location: Hall J

Join keynote speaker Allan Johnson for this opportunity to explore issues related to privilege and oppression and their role in bringing about change.

The University of New Hampshire Outreach Scholars Academy: Web-Based Professional Development for Faculty

Presentation location: Hall I

The University of New Hampshire is sharing a web-based curriculum as a guide for other institutions interested in providing faculty professional development about engaged scholarship. The curriculum, based upon the UNH Outreach Scholars Academy, seeks to teach faculty through workshops, funding opportunities, multidisciplinary team activities, coaching and a project.

Presenters:
- Eleanor Abrams, Director of Outreach Scholarship, Office of the Vice President for Research and Public Service, Associate Professor, Department of Education, University of New Hampshire
2:45–3:30 p.m.
Facilitating a Conversation on Engagement Scholarship for an Entire University

Presentation location: Hall F

This presentation will examine how faculty is bringing the national conversation on outreach scholarship to a university. The authors will share their approach that revealed how faculty perceive outreach and their strategy on raising awareness, developing common language, and creating campus venues to promote the value of Engagement Scholarship.

Presenters:
- Daniel Gerber, Assistant Professor, Community Health Education
- Sharon Fross, Vice Provost for Outreach
  University of Massachusetts Amherst
- William Miller, Director of Planning and Evaluation for
  University of Massachusetts Extension
  University of Massachusetts Amherst

2:45–3:30 p.m.
Public Health Internships in Croatia

Presentation location: Room M

A new level of public service and outreach in Croatia is being reached through public health internship opportunities at the University of Zagreb. U.S. students engage in a variety of tasks under the supervision of Croatian faculty related to their public health areas of interest.

Presenters:
- Carol Cotton, Internship Coordinator
  The University of Georgia
- Rusty Brooks, Professor
  The University of Georgia

2:45–3:30 p.m.
West End Journal: Building Bridges, Advancing the Democratic Arts

Presentation location: Room L

A hallmark of today’s progressive colleges and universities is the forging of strong partnerships across organizational, cultural, educational, and professional lines. Perhaps no project at The University of Alabama better illustrates this quality than the multiple partnerships producing The West End Journal, a twice-monthly newspaper that covers an under-served, largely African American neighborhood in western Tuscaloosa, a city of 80,000 that borders Alabama’s historic Black Belt. Exploratory research shows widespread acceptance of the publication, interest by citizens in contributing to it, interest by advertisers in its continuation, and on-the-job learning at the highest levels by the participating students.
2:45–3:30 p.m.

Our Voices, Our Lives: Engaging African American Middle School Students in New Media

**Presentation location: Room K**

Information technologies and cyberinfrastructures are increasingly integrated within the lives of African American students, yet students’ opportunities to engage in unstructured exploration of computers and information technologies are often limited by lack of access to resources, few opportunities to develop skills in an informal learning environment, and unavailability of social support for their IT learning. Since September 2006, two university educators from the College of Education have partnered with an after school program and public housing agency to involve children between the ages of 9-14 in digital storytelling. This presentation highlights participants’ digital stories, insights gained about their emerging identity narratives, and implications these have for thinking about educative spaces and practices of learning.

**Presenters:**
- Heather Pleasants, Assistant Professor
  University of Alabama
- Sharon Nichols, Associate Professor
  University of Alabama

3:45–4:30 p.m.

Great Ideas Sessions

**Meta-Dialogue as a Means Toward Authentic Community Partnerships**

**Presentation location: Room M**

To meet one challenge in establishing a more systemic university, school district, community partnership, partners must engage in dialogue that is respectful, honest, and productive. To continually monitor and maintain these qualities, representative members of a Georgia partnership participate in an ongoing meta-dialogue using an Action Science methodology.

**Presenters:**
- Karen Watkins, Associate Dean for Research, Technology, and External Affairs
  The University of Georgia
- Louis Castenell, Dean, College of Education
  The University of Georgia
- Paul Sims, Executive Director, Technology and Continuous Improvement Services
  Clarke County School District

3:45–4:30 p.m.

Centering and Advancing the Engagement Mission

**Presentation location: Hall G**

University of Kentucky’s Commonwealth Collaboratives, its Top 20 Business Plan, and its Strategic Plan work together to advance Kentucky by: recognizing, rewarding, and encouraging high-level research-based engagement; elevating the University’s research agenda; communicating with stakeholders statewide, and expressing the value of UK community engagement activity.

**Presenters:**
- Phil Greasley, Associate Vice President, University Engagement
  University of Kentucky
- Connie Robertson, Executive Assistant, University Engagement
  University of Kentucky
3:45–4:30 p.m.

The Bibb County Child Caring Project

Presentation location: Room L

The Bibb County Child Caring Initiative (BCCCI) began in 1995 as a five-year demonstration/evaluation study to determine the effectiveness of a local community to enroll uninsured students into insurance programs, assess their health status, and engage them in needed medical care. It has continued beyond the initial study because of proven benefit to the students, community, and The University of Alabama. It has become the model that Blue Cross and Blue Shield of Alabama uses to conduct its Child Caring Foundation campaign to enroll uninsured children across the state in health care plans.

Presenters:

- Marsha H. Adams, Associate Professor and Director, Undergraduate Programs, Capstone College of Nursing
  University of Alabama
- Alesa Judd, Chairperson, Bibb County Child Caring Foundation and Associate Superintendent, Bibb County School District

3:45–4:30 p.m.

Integrating Engagement into Promotion and Tenure at Auburn University

Presentation location: Room K

As universities strive to become more engaged in their communities, increasingly faculty are encouraged to fuel that engagement through application of their research and teaching expertise in outreach activity. Yet, institutional faculty reward policies often provide the major disincentive to that engagement.

Presenters:

- Royrickers Cook, Assistant Vice President for University Outreach
  Auburn University
- Ralph Foster, Director & CEU Officer
  Auburn University
- Kimberly King-Jupiter, Director of Outreach Planning and Faculty Engagement
  Auburn University
- Royrickers Cook, Assistant Vice President for University Outreach

- Kimberly King-Jupiter, Director of Outreach Planning and Faculty Engagement
  Auburn University

3:45–4:30 p.m.

Measuring and Communicating the Value of Outreach Programs

Presentation location: Hall I

Outreach programs are different from traditional classroom-based academic programs when it comes to assessing the outcomes and success. Many educators are not equipped to evaluate outreach work, nor do their institutions know how to encourage and support outreach evaluation. Representatives of the University of Wisconsin–Extension, a national leader and model in impact evaluation, will discuss how it measures and communicates program value to legislators, local decision makers and constituents, as well as improved programs. Participants will receive a tool to help them assess their institutional readiness to evaluate outreach programs.

Presenter:

- Mary Crave, Program Development and Evaluation Specialist
  University of Wisconsin–Extension

3:45–4:30 p.m.

Building Partnerships with Urban Communities

Presentation location: Hall F

The challenges that face urban communities—health and well-being, neighborhood quality, economic and human capital development—are multifaceted and require interdisciplinary engagement of university and community leaders. This session discusses the North Carolina State University approach to engaging, supporting and learning from the urban communities that surround the university.
Presenters:

- Cheryl LeMay Lloyd, State Leader, Urban Programs
  North Carolina State University
- Cheryl Waites, Associate Professor, Associate Department Head, Director of Graduate Programs
  North Carolina State University
- James Zuiches, Vice Chancellor for Extension, Engagement and Economic Development
  North Carolina State University

4:30–5:30 p.m.

Great Ideas Sessions

A Unique Multi-university and Community-based Partnership to Enhance University Engagement
Presentation location: Room K
The northeast Indiana business community, Indiana University-Purdue University Fort Wayne, Indiana University, and Purdue University have joined to create the Office of University Engagement. This unique collaboration provides an efficient and responsive mechanism by which the intellectual capital of the university partners can be leveraged in support of the needs of regional business and industry.

Presenters:

- Carl Drummond, Associate Vice Chancellor for Research and External Support
  Indiana University-Purdue University Fort Wayne
- Sean Ryan, Director of University Engagement
  Indiana University-Purdue University Fort Wayne

4:45–5:30 p.m.
Creating Communities for a Lifetime
Presentation location: Room L
How can a community come together and become a "Community for a Lifetime?" This presentation will describe how a process was put in place that Michigan communities could use and what was learned about what makes a community elderfriendly.

Presenter:

- Paul McConaughy, Program Leader MSU Extension, Family & Consumer Sciences
  Michigan State University

In Valdosta, Georgia, a unique twist on the traditional university-sponsored business plan contest was launched with an amazing response. This program will cover the history and partnership formation between the university and community groups, as well as Valdosta State University's role in providing technical assistance and continuing education to local citizens.

Presenter:

- Suzanne Barnett, Director, Small Business Development Center
  Valdosta State University

4:45–5:30 p.m.
Engaging the Perspectives of Youth Offenders Through Art
Presentation location: Room O
This presentation will discuss collaboration between research and the work of ArtSafe, a non-profit arts organization that provides arts programs at a local juvenile corrections facility. The partnership is developing strategies that can help students in this restricted and underserved environment succeed in educational settings outside the institution.

Presenter:

- Wendy Hinshaw, Ph.D. Candidate in English
  The Ohio State University
4:45–5:30 p.m.
Leadership Development Programs as a Tool for Engagement and Access

Presentation location: Room P

Members of University of Wisconsin–Extension's statewide Community-Based Leadership Program Development Team will discuss best practices in using leadership programs to engage partners in community development and to provide leaders with the skills to access university resources for the purpose of addressing issues of local importance.

Presenters:
- Sarah Burgert, Associate Professor/Community Resource Development Educator
  University of Wisconsin–Extension Green County
- Art Lersch, Assistant Professor/Community Resource Development Educator
  University of Wisconsin–Extension Lincoln County
- Dan Hill, Professor/Local Government Specialist
  University of Wisconsin–Extension Local Government Center
- Cara Carper, Instructor/Community Resource Development Educator
  University of Wisconsin–Extension

4:45–5:30 p.m.
Outreach Sufficiency: Model Partnership Self-Assessment

Presentation location: Hall G

The intent of outreach activities is to engage the public. Not all departments develop adequate programming that is meaningful to non-university audiences. By understanding the Sufficiency Model and learning how to use a self-assessment tool-kit, participants can identify areas working to inhibit outreach endeavors.

Presenters:
- Nancy Nestor-Baker, Director, P-12 Project
  The Ohio State University
- Cindy Overly, Assistant Director, P-12 Project
  The Ohio State University
- Didi Fahey
  The Ohio State University

4:45–5:30 p.m.
Finding the Perfect Match: Linking Program Design to Population Needs

Presentation location: Hall I

Mississippi State University and the University of Louisiana-Monroe offer successful programs to practicing teachers through non-traditional means. The programs are organized very differently considering the student populations and program goals. This session focuses on how schools can design programs to meet the needs of their specific student populations.

Presenters:
- Michelle Johnston, Assistant Professor
  University of Louisiana at Monroe
- Mark Binkley, Director of Academic Outreach and Continuing Education
  Mississippi State University
4:45–5:30 p.m.  
**The Des Lee Collaborative Vision**  
**Presentation location: Room Q**

In 1996, the Des Lee Collaborative Vision: Connecting St. Louis through Educational and Community Partnerships, in conjunction with the University of Missouri-St. Louis, was launched. The DLCV now has 36 endowed professorships at four universities and more than 100 community partners. Currently there is nothing else like the DLCV in the country.

**Presenter:**
- Steffanie Rockette, Associate Director, Des Lee Collaborative Vision  
  University of Missouri-St. Louis

4:45–5:30 p.m.  
**Building Relationships for the Common Good**  
**Presentation location: Hall F**

This presentation describes a relationship between The Ohio State University’s Colleges of the Arts and Sciences and non-profit partners. The presenter traces the relationship’s growth from exploratory dialogues with non-profit leaders to creation of an advisory committee and development of collaborative programing that leads students from classroom work through service-learning courses to internships.

**Presenter:**
- Mindy Wright, Manager, Community Partnerships,  
  Colleges of the Arts and Sciences  
  The Ohio State University

5:30–7:15 p.m.  
**Rooftop Reception**

Join us on the rooftop of the Monona Terrace Community and Convention Center for a welcome reception featuring generous appetizers, a cash bar and smooth jazz. Take in one of the best views Madison has to offer before heading out to enjoy our local dinner fare. You will be treated to the majestic view of the State of Wisconsin Capitol to your west and the inspiring view of Lake Monona to your east; it’s an ideal setting for the start of the Outreach Scholarship Conference.

Doug Brown, Michelle DuVall & Get Down, Mr. Cat! will entertain you with the timeless classics of the 30’s and 40’s. This creative group has earned a reputation for playing some of today’s most swinging and refined jazz in the region.

The farthest east Monona Terrace elevator (near the Hilton sky walk) will deliver you to the rooftop directly. The central elevators will deliver you to the fifth floor where you can follow the easy walk up the ramp to the rooftop. We recommend you bring a sweater or light jacket with you to the reception.

Creating an American Archive: A Vision for Public Broadcasting in a Digital Age

Presentation location: Hall J

Broadcast audio and video content has historically been seen as transitory and ephemeral, but public broadcasters are interested in preserving and sharing their media artifacts of American life with the public, who invested in their initial creation. Public broadcasters are therefore working to develop an American Archive to preserve, exhibit and share content from public broadcasting’s rich library. In this session, the presenter will discuss and ask for feedback about the plans that are underway to define and create this Archive.

Presenter:

- Loren Mayor
  Vice President for Media Strategies
  Corporation for Public Broadcasting

8:30–9:30 a.m.

An Unconventional Conversation on Outreach Scholarship

World Café™ Conversations

Facilitators:

- Annie Jones, Community Resource Development Agent, University of Wisconsin–Extension, Kenosha County
- Gerry Campbell, Center for Community and Economic Development, University of Wisconsin–Extension, Madison

Outreach Scholarship Conference 2007
World Café™ Conversations are an intentional way to create a living network of discussions about questions that matter. A Café™ Conversation is a creative process for leading collaborative dialogue, sharing knowledge, and creating possibilities for action in groups of all sizes. We will conduct a World Café™ Conversation for the entire conference addressing the questions that really matter to move forward as individuals, institutions, and as the field of Outreach Scholarship. This will be an opportunity for the interaction with others that was requested from previous years’ participants.

10:00–11:15 a.m.

Making Innovation Real

Presentation location: Hall J

Penn State Outreach has enjoyed many successes over the years. However, like other organizations in this global era, the challenge is balancing this legacy while creating a sense of urgency in preparing for the future. This session will explore how to make innovation real through some examples of successful and not-so-successful innovations. Presenters will share their vision and lessons learned, as well as challenge participants to join the dialogue and share examples.

Presenters:

- Ted Krichels, General Manager, Public Broadcasting and Associate Vice President for Public Engagement
  The Pennsylvania State University
- Craig Wedemann, Vice President for Outreach
  The Pennsylvania State University

Keynote Address: Broadening the American Experience

Presentation location: Ballrooms ABCD

Mark Samels, Executive Producer of American Experience, the longest-running and most watched history series on television, will describe how the PBS series taps academic expertise at universities to add authenticity to its historical documentaries and how it reaches out to various communities beyond broadcast through outreach initiatives and emerging digital media platforms. Several case studies will be featured, including a major upcoming mini-series on Native American history, We Shall Remain.

About the speaker: Under his leadership at WGBH, the Boston PBS station, American Experience documentaries have been honored with nearly every industry award, including the Peabody Award, prime-time Emmys, the duPont-Columbia Journalism Award, Writers Guild awards, Oscar nominations, Audience and Grand Jury awards at the Sundance Film Festival, and the Erik Barnouw Award from the Organization of American Historians.

South Region

Virginia Tech Institute for Advanced Learning and Research (IALR)

Economic Transformation through Out-of-Region Engagement

Presentation location: Hall H

Presenters:
- Charles W. Steger, Ph.D., President, Virginia Tech
- Virginia Hall, President, Institute for Advanced Learning and Research
- Ben J. Davenport, President, Virginia Chamber of Commerce, and Vice Chair, Future of the Piedmont Foundation
- Timothy Franklin, Ph.D. Director, Virginia Tech, Southside and Executive Director, Institute for Advanced Learning and Research
- Nancy Franklin, Senior Director, Planning & Academic Program Development, Institute for Advanced Learning and Research

Virginia’s economy is changing because of increased global competition. Virginia Tech acknowledged its larger role in statewide economic and community development by embracing a broad-scale engagement partnership with Southside (south central) Virginia to help this economically distressed region 120 miles away reinvent itself. Session participants will learn the processes and outcomes that have made this project a national model for university engagement.

Portland State University Community Watershed Stewardship Program (CWSP)

**Expanding the Circle: Engaging Communities, Educating Citizens and Ensuring Watershed Health**

**Presentation location: Hall H**

**Presenters:**

- Kevin Kecskes, Director, Community–University Partnerships, Portland State University
- W. Barry Messer, Assistant Professor, Urban Studies and Planning, Portland State University
- Stephen Shackman, Community Watershed Stewardship Program, City of Portland Environmental Services

The Community Watershed Stewardship Program (CWSP), a joint venture between the City of Portland Bureau of Environmental Services and Portland State University, has implemented more than 130 community projects in more than a dozen years involving 860 community groups and hundreds of PSU students and faculty members. Find out how the partnership has directly increased student learning, inspired faculty scholarship, and increased community capacity to improve watershed health in the Portland area. Through $490,000 in grants and by providing support and technical assistance to partnering organizations, the CWSP has leveraged more than $2 million in community support through donations of services, materials, and volunteer time.

State Showcase: The Pennsylvania State University
The Scholarship of Outreach: Writing, Publishing, Disseminating

Presentation location: Hall E

Moderator: Theodore R. Alter, Professor, Agricultural Environment and Regional Economics

Presenters: Cheryl A. Dellasega, Jawaid Haider, Lakshman S. (Lucky) Yapa

Through engagement, the public work of higher education directly bridges campus and community. Ideally, engagement is scholarly work that links universities with external partners, both public and private, in reciprocal, mutually beneficial relationships. It is work that is grounded in local and expert knowledge, and is focused on real-world problems.

This showcase focuses on how it is possible for faculty to bridge campus and community effectively, while establishing their scholarship, making their way through promotion and tenure, and achieving peer recognition of their scholarly accomplishments. Learn from senior faculty who have conducted, published, and disseminated their research, serving both academic and community audiences. They will provide perspectives on how best to do this work, the institutional supports that were helpful to them, the institutional barriers they faced, and what institutional changes are necessary to better enable engagement and public work in higher education.

This showcase will be of interest to everyone involved in the process of engaging campus and community: campus-based faculty, educator-practitioners working in communities, citizens, and academic administrators. The senior faculty on the panel are all recipients of Pennsylvania State's annual university-wide recognition for excellence in outreach scholarship, and bring years of experience as engaged scholars in academia.

BioTrek: A Journey into the Living Sciences

Discover the central part of the UW-Madison campus and get a feel for science as exploring the unknown. Visit the sites of several historical milestones, tour the DNA Synthesis Lab, the DNA Sequencing Lab, and the Gene Expression Center, and get a glimpse of the lab that first discovered how to grow embryonic stem cells. In the Outreach Teaching Lab you’ll explore a series of hands-on activities built around parables and paradoxes designed to cultivate science-savvy learners of all ages, including extracting DNA from wheat germ, analyzing a sample of DNA from salmon, and building a human DNA model. Finish with a discussion on how people have a stake in their land-grant university and how a land-grant university has a stake in the well-being of its community.

South Madison Neighborhood

South Madison is home to a culturally and economically diverse population with a rich history. Visit this neighborhood to learn about the educational outreach efforts going on in the community. And, learn how a coalition of organizations and institutions here is building capacity to develop solutions for the issues in the community, with an emphasis on planning, funding, and organizational aspects. One of the featured programs is the University of Wisconsin–Extension Dane County Financial Education Center that is providing a range of educational programs and services to increase the financial literacy skills of the residents.

The Pyle Center: Providing Access to Distance Learning

The Pyle Center, University of Wisconsin–Extension’s flagship distance education and conference center, offers learners direct access to university resources wherever they live or work and extends the Wisconsin Idea to global audiences. The conference center features a variety of meeting rooms, the latest distance education and audiovisual systems, fine cuisine and special amenities. The center’s meeting rooms include 15 conference classrooms, 10 specially designed distance education rooms, an auditorium, and computer labs—all complemented by comfortable break-out spaces for informal networking. See firsthand the services we provide for University of Wisconsin institutions, State of Wisconsin agencies, K-12 districts, and other educational organizations. Learn how we support the building’s extensive communications systems and how we link hundreds of locations throughout Wisconsin for virtual programs and meetings through audioconferencing, webconferencing, videoconferencing, digital media, and more!

Title: Way of the Warrior

Presentation location: Hall E

Presenter: Patty Loew, Associate Professor, Life Sciences Communication, University of Wisconsin–Madison

Way of the Warrior uses personal stories of heroes and soldiers to examine the warrior ethic and to try to answer the question why, during the wars of the 20th century, Native men and women volunteered to serve in the U.S. military in numbers that far exceeded their proportion in the general population. These gripping stories from WWI, WWII, Korea, and Vietnam weave a tapestry of positive and negative themes—the warrior ethic, prejudice and stereotypes, forced assimilation, poverty, cultural pride, redemptive acts, and healing. The documentary, soon to go national, uses historical footage, personal diaries and interviews to reveal what it means to be “ogichidaa,” one who protects and follows the way of the warrior.

Title: Promoting University Outreach and Research Partnerships

Presentation location: Room H

Presenters:
- Chris Andersen, Director Project GRO
  The Ohio State University
- Karen Bruns, Leader OSU Cares and Outreach and Engagement
  The Ohio State University
- Julie Williams, Associate Vice President for Research and Outreach Scholarship
  University of New Hampshire
- James Zuiches, Vice Chancellor for Extension, Engagement and Economic Development
  North Carolina State University

Though outreach and research are core missions of higher education in most institutions, they have not always been strategically coordinated. Today critical issues in the community and higher education have promoted a closer integration of these two missions. Increasingly universities are capitalizing on the synergy that collaborating across research and outreach can create. This session will focus on building partnerships between these two missions and the innovative programs that can result. Ohio State’s Project GRO assists with development of outreach plans for research proposals and facilitates collaborations with outreach providers. The University of New Hampshire (UNH) has a multifaceted approach that integrates engaged scholarship into the academic and research enterprise. North Carolina State University is integrating research and outreach scholarship to advance economic development.

**Capstone Address: Why Outreach Matters: Mission, Money, and Strategy**

**Presentation location: Ballroom ABCD**

As you look at the long historical sweep of the past 150 years, outreach has been central to the expansion of access to higher education. Outreach programs have made a difference in people's lives and have helped to shape society's economic, cultural, and political systems. At the same time, this educational agenda must be negotiated within the political-economic context of our institutional settings. Given the current political economy of higher education, which requires institutions to be more entrepreneurial, outreach is more important than ever to a larger organizational strategy of survival and growth. As leaders of outreach, we need to articulate our mission about access and showcase our entrepreneurial skills to position ourselves as key actors in this strategy.

Project Riverway is a multidisciplinary service learning approach that has developed various partnerships, ranging from two state universities to local governments, that strengthen economic and community well-being, in a region where poverty rates soar as high as 31 percent, by developing heritage, cultural, educational, and ecological tourism in the area.

Presenters:
- Danny Bivins, Public Service Assistant The Fanning Institute
  The University of Georgia
- Leigh Askew, Public Service Assistant The Fanning Institute
  The University of Georgia

Online Student Perceptions of Group Projects: Implications for Distance Education (3)

Appropriate mechanisms inherent in online group work to support the five stages of social task development and student perceptions of roles and responsibilities during group interactions in online courses were identified. Student perceptions of group dynamics in four online courses were examined.

Presenters:
- Bruce Cameron, Associate Professor, Department Family and Consumer Sciences
  University of Wyoming
- Kari Morgan, Assistant Professor, Department Family and Consumer Sciences
  University of Wyoming
- Kyle Kostelecky, Assistant Professor, Department Family and Consumer Sciences

Beyond the Hunger Banquet (5)

The OXFAM Hunger Banquet is a successful tool to raise awareness and funds to help fight hunger. This poster presents strategies used to adapt the Hunger Banquet into a classroom assignment to enhance classroom dynamics and student learning, and to increase campus awareness, advocacy, and action against hunger and poverty.

Presenter:
- Maria Navarro, Assistant Professor
  The University of Georgia
Black Belt Action (6)

Black Belt Action is an action-oriented service learning experience for all University Honors Program (UHP) members at the University of Alabama. For approximately two weeks during UA’s Interim term, which typically runs from the middle of May to the beginning of June, UHP students live in and learn about Alabama’s Black Belt, engaging in educational and cultural opportunities followed by improvement projects in elementary schools in western Black Belt counties.

Presenter:
- Lesa Shaul, Director of Honors Academy
  University of Alabama

Creative Dance Pilot (7)

The Dance Education Pilot originated jointly through the Creative Education branch of the Creative Campus Initiative and Regina Noland, the Tuscaloosa City Schools’ Arts and Education Coordinator. Since time is particularly valuable in the K-12 setting, the Dance Education Pilot works with physical education instructors at two local elementary schools to integrate dance education into students’ busy schedules. The Dance Education Pilot allows undergraduate dance majors practical experience within teaching environments, while providing creative movement instructions to approximately 140 elementary school students.

Presenters:
- Scott Bridges, Professor
  University of Alabama
- Whitney Cothran, Student Teacher
  University of Alabama

Growing the Capacity of Hispanic Women through Market Gardening (8)

Due to cultural and language barriers, it is challenging for many Hispanic women immigrants to supplement their family income and become involved in the community at large. University of Wisconsin–Extension educators successfully initiated a program to teach vegetable and herb production and marketing to Hispanic women.

Presenters:
- Thomas Schnaubelt, Dean for Community Engagement and Civic Learning
  University of Wisconsin–Parkside

4-H Science Afterschool: Experiential Learning in Science (9)

The 4-H Science Afterschool initiative in Wisconsin provides training to afterschool educators, connections with volunteers from local universities, and access to materials to enable young people to experience science as exploring the unknown at afterschool programs. Try your hand at live demonstrations and hands-on activities used by afterschoolers.

**Reaching Out to Youth with Advanced Learning Needs (15)**

The Wisconsin Center for Academically Talented Youth (WCATY) offers year-round enrichment activities and programs for students with advanced abilities. The organization is working toward using University of Wisconsin–Extension facilities to expand its services and resources. This is the only organization providing programs for the academically talented students on a statewide basis.
The Wonders of Physics: Sharing Physics with Wisconsin (16)

The Wonders of Physics aims to increase interest in physics in the general public. The core of this outreach program is a fast-paced, interactive presentation that exposes the audience to dynamic physics demonstrations. The program includes public presentations, a traveling show that visits schools, workshops for families, and teacher workshops.

Presenter:
- Rachael Lancor, Associate Outreach Specialist
  University of Wisconsin–Madison

Differences in Youth Perception of Ohio 4-H Based on Gender (17)

Gender plays an important role in youth development and socialization through various extracurricular activities. Results from over 1400 youth revealed: female youth report a higher evaluation of 4-H and are more likely to receive stronger support from their peers and parents to participate in 4-H activities than their male counterparts.

The Outreach Scholarship Conference will return to its origin, Penn State, in 2008. Ten years ago, a small group of Penn State professors and administrators created a forum to deliberate, recognize, and document outreach scholarship in the university. Join us next year for a dynamic program to further advance our outreach scholarly work.

Information about the 2008 conference is available online at: www.outreachscholarship.org
